Buffale Head on New Money. Secretary Gage a few days ago requested the Smithsonian officials to arrange to furnish the bureau of engraving and printing with a picture of the head of a huge bison which is a central figure in the natural history hall of the National museum, the object being to use it on the third of a new series of bank notes that is being issued by the department. The \$1 note of this series, which is the handsomest from an artistic standpoint ever issue by the government, has as the centra figure an American eagle. The \$5 note of the same series has an Indian head. while the \$10 note now being made will, in addition to other changes, bear as central figure the head of an American buffalo.

It was the intention to have one of our war vessels embellish this note, but for some reason the subject was changed. The case holding the group of buffalo from which the photograph was made is not much smaller than an or dinary tenement house and contains herd of five of the finest specimens the vanishing bison in existence. Th bull whose head will embellish the \$1 note is said by Dr. F. W. True, executive curator of the National museum to be the largest animal ever captured on the Missouri-Yellowstone divide. It weighs at least 1,600 pounds, his vert cal height at shoulders being six feet.

In making the photograph the huge glass, which was in two pieces, had to be removed, and it will be replaced with as large a single plate glass as is made. This only illustrates the great care taken by the treasury department to secure, both in portraiture and figure, the best models to be procured, all portraits being made from the best likenesses of the subject in existence.-Chicago Tribune.

A New Way of Hiring "Supes." Two athletic youths, with more en thusiasm than money, went recently to one of the city's cheap theaters t see a prizefighter then starring and sparring for 25 cents admission. The next day they were half rueful, half amused expressions which called for an explanation.

"Well," admitted one of them, "w had the funniest trick played on us we ever struck. We saw the play, and of course we clapped as hard as we could at the boxing part. Then one of the ushers came up and said confidentially that by paying 10 cents extra we could go round to the back and see son more boxing. We jumped at the chance and went round behind the scenes. No sooner had we got there than some one called out: 'More supes! More supes for the street scene!" and a man rushed up and said, 'You go on and supe for th scene, and we'll refund your money We were tickled to death, being har up, so on we went. After the scen there was an awful confusion, and w were hustled out somehow. We tried to get our money, but they were to spry for us. We just paid 10 cent-apiece to go around and supe for those people."—New York Tribune.

Beware of a Cough.

A cough is not a disease but a symptom. Consumption and bronchitis, which are the most dangerous and fatal diseases, have for their first indication a persistent cough, and if properly treated as soon as this cough appears are easily cured. Victoria as a Host. The London Chronicle says the an nouncement that the king of Italy will be the guest of King Edward VII this year recalls the visit paid by his grandfather, Victor Emmanuel, when he was king of Sardinia, to Queen Victoria. The king used to tell his friends for many and many a year afterward lit-tle stories to illustrate Queen Victoria's friendly and homely spirit. When his leave taking of the queen and the prince consort was formally over and he was in his apartment on the point of departure, the queen knocked on the door and ran in alone for a last handshake with her gruff but greatly delighted guest.

The blood and skin are so closely related that whatever affects one scriously interferes with the functions of the other. Not only health, but life itself, depends upon perfect harmony between the blood and skin. When, therefore, the blood becomes poisoned from any cause, it quickly Internal and manifests itself upon the skin in the form of sores and ulcers, pimples and various External Poisons eruptive diseases. By the character of the sore we are enabled to determine the nature of the poison or humor in the blood, as every disease originating in the blood has its own peculiar sore or pimple. The

Millions of little glands or tubes connect the blood with the skin, and through

sore we are enabled to determine the nature of the poison or humor in the blood, as every disease originating in the blood has its own peculiar sore or pimple. The skin is not only affected by the poisons generated in the system, but poisons from without enter through the open giands or pores and quickly infect the blood. Mercury rubbed upon the skin will produce Rheumatism, and Poison Oak and Ivy and other wild plants gain easy access to the blood through the skin. As so-called skin diseases originate in the blood, the application of powders, soaps and washes can do no permanent good, but often do immense damage by Soft, Healthy Skin closing up the outlet to these little tubes and interfering with the natural action of the skin. The treatment must begin with the blood, and the acid or other poisons antidoted or neutralized. S. S. S. does this and purifies the circulation, builds up the blood and flushes the little glands or pores with pure, new blood, and restores healthy action to the skin. The use of cosmetics never yet brought health and beauty to a rough, red, pimply skin or sallow complexion. What is needed restores healthy action to the skin. The use of cosmetics never yet brought health and beauty to a rough, red, pimply skin or sallow complexion. What is needed is rich, pure blood, such as S. S. S. makes. It not only relieves you of all disfiguring blackheads, blotches and irritating, itching cruptions, but improves your general health. S. S. contains no mercury, potash, arsenic or other mineral, but is a purely vegetable remedy and the safest and best in all blood and skin troubles. Write our physicians for advice or information; they have made a study of blood and skin diseases, and you can have the best medical advice without cost. Book of the plants of the property of the p
